Drive, Pray, Bless

For a practical expression of Christian Unity,
join the Swift Current Area Ministerial Association
on Thursday, January 25, 2024 at 7:00pm.

We will gather for hot chocolate and a short orientation at
St. Olaf Lutheran Church.

Participants will be divided in carpool teams to drive to churches and other community
location to pray for blessing and any other specific requests received.

Please let Annette know if you are interested in taking part.

Please join us for a

Potluck Lunch

following worship on **Sunday, January 28.**

Hearing Assist Devices

are available at the soundboard
(located at the center back of the sanctuary)
in order that all might participate in our worship service.
If you would like to try out one of these devices
please feel free to approach our sound technician
or one of the ushers.

Earthcare Partners invites you to a presentation by Dwight and Carol Lemon
on the proposed expansion of Irrigation on Duncairn Reservoir by the
Water Security Agency and the impact on Swift Current's water supply as well
as wildlife habitat.

Sunday, February 4th at 11:30 a.m. in the Burnham Room.

Baked Items for CMHA

You are invited to bring baked items for CMHA
to the church on

Monday, January 29th or Tuesday, January 30th

Office hours are 9:00 a.m. to noon & 1:00 p.m. to 3:30 p.m.

They are looking for any kind of baking such as
cookies, muffins, pies, dainties, tarts or cakes.

If you are not a baker but would still like to help out,
granola bars, Ziploc sandwich baggies, and individual portions of pudding, yogurt and
breakfast oatmeal are also appreciated.

CMHA would also appreciate donations of plastic containers (sour cream or yogurt) to
send home leftover food with their clients. 500 ml and 750 ml containers work the best.

Recordings

of past Sunday services
are available on the
[church website](#).

DID YOU KNOW?

Did you Know 64% of home energy use is taken up with heating your
home. Building efficiency makes the biggest difference in lowering
the amount of energy required and the loss of heat that occurs in an
inefficient building.
